Success!

The following Domain renewal application below has been entered. We will send a confirmation message to the email addresses specified in the application.

Next steps:

For domains already in the DOTEARTH registrar:

- No additional steps. After 1-2 days, check the WHOIS to see years added, extending your domain expiration date.

For transfer-in domains (not yet in the DOTEARTH registrar):

- We have sent a Request for Confirmation email to the registrant and administrative contacts of record of each domain. You must respond to the emailed instructions to authorize the domain transfer within five (5) days, or the renewal application for those domain will time-out and must be resubmitted.
- After we initiate the domain transfer, some registrars (Network Solutions, Register.com, others) require your authorization to release your domain. You should look for an email from the current registrar (typically within 1-2 days) requesting your authorization to release your domain. You must respond to that email in a timely manner, or they may reject the transfer request.

***Thank you for your
order!***

Your new domain renewal will take approximately 24-72 hours to appear in the domain name search. During that time, it may appear unchanged as your registration is being processed. To verify your registration, check the domain search after 24-72 hours for your domain to verify the new domain expiration date.

After the renewal is completed, you may maintain your domain settings from our secure online control panel located at the bottom of our home page at <http://www.dotEarth.com>. For support, contact us by email at support@dotEarth.com. Please include your domain name with your inquiry. Also include the domain password with any modification requests.
